| Tools & Concepts | Full Stack Architecture, Git, Agile Methodologies, Project Management, Quality Control |

EXPERIENCE

AI Trust and Safety Analyst (Google Extended Workforce)

GlobalLogic | Austin, TX | August 2025 – Present

- Analyzed complex datasets to ensure Google product AI outputs adhered to strict ethical, safety, and quality standards (AI Compliance).
- Evaluated and rated Large Language Model (LLM) outputs, directly contributing to the refinement and ethical governance of global AI products.
- Applied a technical understanding of system behavior and logic to uphold high-quality, data-driven assurance protocols.

Solar Panel Distribution (Operations & Quality Management)

Greentech Renewables | Bow, NH | November 2023 – March 2024

- Established and managed all new location operations, coordinating logistics and ensuring the timely delivery of specialized solar supplies.
- Implemented stringent quality control measures, which enhanced product excellence and maintained high customer satisfaction ratings.
- Optimized inventory management processes, resulting in minimized waste and maximized profitability over a short period.

Workforce Manager (7 Years of Progressive Leadership)

PCI | Dallas, TX | April 2011 – February 2018

- Spearheaded operational expansion from one to four locations, significantly increasing market reach and driving revenue growth.
- Developed and implemented data-driven workforce strategies that resulted in a measurable increase in revenue per hour.
- Enhanced organizational communication by developing and managing an internal company Intranet, demonstrating early-stage web development and technical management skills.

EDUCATION & CERTIFICATIONS

Certificate, Full Stack Web Development

University of New Hampshire | December 2022 – June 2023

Certified Azure AI Engineer Associate

Bachelor of Science (B.S.), Environmental Science

Northern Vermont University

Certificate, Music Performance

Berklee College of Music
